20th March 2014

Removal of Items from APUA Utility Poles

APUA would like to advise members of the general public that it is a violation of its safety policy to affix any material to utility poles. Materials such as posters, bunting, plastics etc. affect our service staff's ability to properly access the utility poles for servicing and also pose a safety risk. In light of this, the Authority will be removing such items promptly.

The cooperation of the public is solicited to this end.
