

Press Release

URGENT: FOR IMMEDIATE RELEASE

9th April 2014

From: APUA Water Business Unit

Unauthorized Dredging at Parham Harbor

The APUA Water Business Unit is sending out an urgent appeal to parties currently conducting dredging activity at the Parham Harbour. This activity will severely impact on Sembcorp's operations in that area, as they will be unable to intake water for treatment and distribution. This in turn will affect the water supply to APUA consumers.

Any information that persons may have concerning these activities can be reported to APUA at 480-7968.
