

FOR IMMEDIATE ATTENTION

Monday June 1st, 2015

Contact: APUA Electricity

Phone: (268) 480 7538

Fax: (268) 480 7042

The APUA Electricity Business Unit is glad to facilitate the use of Solar PV Systems on its grid. In order to connect a system, customers must have applied and received approval from APUA to proceed.

Any system connected without approval is considered illegal and will be disconnected from the grid immediately. Systems connected without the knowledge of the Authority pose a serious risk to workers.

For information on the application process please visit our website;

www.apua.ag/interconnection-policy
